- Adhered to strict safety protocols for fuel dispensing and hazardous materials handling
- Maintained cleanliness and organization standards according to company policies

Asset Protection Investigator:
Walmart - Portage Michigan: January 2023 - June 2024
- Responded calmly and professionally to emergency situations involving safety or theft
- Documented and reported safety and security incidents with detailed accuracy
- Investigated potential theft and policy violations to minimize company loss

Online Digital Shopper & Cashier and Customer Service Desk Associate:
Walmart - Paw Paw Michigan: July 2021 - January 2023
- Customer facing roles emphasizing accuracy, efficiency, and communication.

Projects

Begleri Tricks Revamp
Developed a responsive web application featuring interactive trick cards, SVG-based decision trees and dynamic content expansion using React. Implemented Google and Discord OAuth and a Postgres backend hosted on the clients own server. Designed mobile-first UI using Tailwind CSS with hover states, animations, and more for a consistent theming across the whole web app. Currently working with the client to fully deploy the web app.

Personal Professional Website - jaidenanders.dev
Designed and developing a personal professional website to showcase projects, technical skills, and experience. Includes dynamic content, responsive design, and plans to showcase all current and future personal projects.

Job Application Tracker - tracker.jaidenanders.dev
Developing a full-stack job search management application featuring a Kanban-style board for tracking applications from submission to offer, an analytics dashboard for progress insights, and automated follow-up reminders with drag-and-drop status updates. This is paired with a google chrome extension that I built for seamless adding of jobs. Works on indeed and linked in currently.
